Index to Volume 5 Subjects

- Acoustic neurinoma(s), sensorineural and vascular changes in, 49
radiologic evaluation of, 270
- Adaptation, of vestibular neurons in cats, 262
- Aerodynamics, laryngeal, 397
- Air flow, laryngeal, in voice disorders, 397
- Air pressure, subglottal, in voice disorders, 397
- Airway(s), management in Hallermann-Streiff syndrome, 64
- Aminoglycoside(s), effects of topical application on inner ear, 166
ototoxicity, 177
overdosage, causing total deafness, 118
- Anatomy, cochlear, vascular changes induced by elevated temperatures and noise, 99
of gerbil cochlea, 127
- Anlage(n), inner ear, development of, 373
- Anomaly(ies), craniofacial, airway emergencies with, 64
- Anoxia, effects on endolymphatic and perilymphatic pressures in guinea pig inner ear, 159
- Antigen(s), induced by Epstein-Barr virus in carcinoma cells, 1
- Aqueduct, vestibular, enlargement of, 411
- Aspirin, causing hearing loss, 235
effects on inner ear in Reye's syndrome, 191
- Atrophy, of parotid gland, induced by duct occlusion, 183
- Auditory 40-Hz response(s), in guinea pigs, 404
- Auditory testing, behavioral, 43
evoked potentials, 43
high-frequency, in aminoglycoside ototoxicity, 177
- Autoimmune inner ear disease, 418
- Bacterium(a), beta-lactamase-producing, in tonsillitis, 382
- Barbiturate(s), effects on vestibular neuron responses, 262
- Basilar membrane vessel, in gerbil cochlea, 127
- Beta-lactamase, production in penicillin-resistant infections, 382
- Capillary(ies), in gerbil cochlea, 127
- Carbogen, for hearing loss due to noise exposure, 426
- Carcinoma(s), Epstein-Barr virus activation of, 1
laryngeal, 344
radiation-induced, of hypopharynx, 203
- Carcinosarcoma(s), of salivary gland, 415
- Cartilage, tumors of, 350
- Cerebellopontine cistern, tumors in, 270
- Cerebral cortex, aspiration of, effects on auditory 40-Hz responses in guinea pigs, 404
- Chemotherapy, preoperative, for head and neck cancer (editorial), 77
- Children, laryngeal stenosis in, 360
- Cholesterol cyst, mimicking middle ear vascular tumor, 68
- Chondrosarcoma, laryngeal, 350
- Cisternography, in evaluation of acoustic neuromas, 270
- Clindamycin, for group A β -hemolytic streptococcal infection, 382
- Cochlea(s), changes in Reye's syndrome, 191
effects of temperature elevation and noise in chinchillas, 99
effects of topical otic drops, 166
efferent system of, 206
hair cell loss caused by aminoglycoside overdosage, 118
hydrostatic pressure of endolymph and perilymph in, 159
microphonic potentials in guinea pigs, 34
Mondini malformations in, 242
partition of, response to frequency change, 34
vascular anatomy in gerbils, 127
- Cogan's syndrome, 258
- Colliculus(i), aspiration of, effects on auditory 40-Hz responses in guinea pigs, 404
- Corticosteroid(s), in treatment of Cogan's syndrome, 258
- Cortisporin, effects of topical application on inner ear, 166
- Craniotomy, for trigeminal neurinoma, 301
- Cranium, tumors of, 301
- Cricoid, anterior split, in neonates, 360
- Cricothyroid muscle, 281
- Cushing's disease, 138
- Deafness, acoustic neurinoma causing, 49
aminoglycoside overdosage causing, 118
- Deltpectoral flap, with pharyngolaryngectomy, 203
- Drugs, nonsteroidal anti-inflammatory, resulting in hearing loss, 235
- Duct occlusion, for parotid gland disorders, 183
- Dysphonia, spastic, 7
- Ear(s), acoustic neurinoma in, 49
diseases of, immunologic mechanisms in, 418
otitis media in, 80
partial auditory nerve damage in, effect on function, 43
- Ectoderm, inner ear, development of, 373
- Effusion(s), serous, with otitis media, 80
- Eighth nerve, tumors of, 270
- Epithelium, Epstein-Barr virus activation of carcinoma in, 1
inner ear, effects of streptomycin in chicks, 387
- Epstein-Barr virus, *see under* Virus(es)
- Esophagus, synovial sarcoma of, 266
- Eustachian tube dysfunction, in hemotympanum, 68
- Evoked potentials, auditory, in guinea pigs, 404
cortical, effects of auditory nerve damage on, 43
- Eye(s), movement responses of, mathematical model of, 27
reflexes of, effect of labyrinthine lesions on, 15, 93
- Fistula(e), salivary, treatment by duct occlusion, 183
- Fixation suppression, of vestibular nystagmus, 27
- Flap, lingual, for lip reconstruction, 60
- Frequency, changes in, effect on cochlear partition displacement responses, 34
- Glottis, 281
- Glycoprotein(s), nasal mucous, 334
- Graft(s), costal cartilage, for laryngeal stenosis, 360
- Group A β -hemolytic streptococci, recurrent tonsillitis in carriers of, 382

- Hair cell(s), loss of, after application of topical otic drops, 166
loss of in cochleas exposed to elevated temperatures and noise, 99
- Hallermann-Streiff syndrome, airway management in, 64
- Hearing loss, in Cogan's syndrome, 258
in Reye's syndrome, 191
induced by topical otic drops, 166
induced by chronic noise exposure, 426
induced by intense sound and nonsteroidal anti-inflammatory drugs, 235
sudden, 394
- Hearing sensitivity, effects of aminoglycosides on, 177
- Hemophilus influenzae*, induction of otitis media in chinchillas by, 80
- Hemotympanum, 68
- Hoarseness, intramuscular laryngeal lipoma causing, 71
- Hormone(s), in laryngeal carcinogenesis, 344
- Hydrostatic pressure, see under Pressure
- Hyperammonemia, effects on inner ear in Reye's syndrome, 191
- Hypopharynx, carcinoma of, 203
- Immunobiology, of inner ear, 418
- Influenza B virus, see under Virus(es)
- Inner ear, anlage, development of, 373
changes in Reye's syndrome, 191
damage from topical otic drops, 166
hydrostatic pressure of, 159
immunobiology of, 418
Mondini malformation, 242
- Innervation, efferent, of labyrinth, 206
- Internal auditory canal, tumors in, 270
- Intubation, effect of craniofacial anomalies, 64
- 5-Iododeoxyuridine, effects on carcinoma cells, 1
- Keratitis, in Cogan's syndrome, 258
- Ketamine, effects on vestibular neuron responses, 262
- Labyrinth, efferent innervation of, 206
paralysis of, effect on vestibulo-ocular reflexes, 15, 93
- Laryngectomy, for laryngeal chondrosarcoma, 350
- Laryngotracheoplasty, for laryngeal stenosis, 360
- Larynx, aerodynamics of, 397
carcinoma of, 344
chondrosarcoma of, 350
functions of, 281
intramuscular lipoma in, 71
stenosis of in children, 360
- Laser, argon, in stapedotomy, 108
CO₂, in stapedotomy, 108
- Lip, reconstruction of, bipedicle lingual flap for, 60
- Lipoma, intramuscular, in larynx, 71
- Lividomycin overdosage, causing total deafness, 118
- Malignant mixed tumor, of salivary gland, 415
- Medicinal therapy, for hearing loss due to noise exposure, 426
- Meniere's disease, 418
- Middle ear, ototoxicity of otic drops in, 166
vascular masses in, 68
- Mondini malformation, 242
- Mucosa(e), hyperplastic aberrations of, 344
- Mucus, release of, 334
- Nasopharynx, Epstein-Barr virus activation of carcinoma in, 1
- Neonate(s), extubation in, 360
- Nerve(s), auditory, damage of, effects on function, 43
cochlear, compression of by acoustic neurinoma, 49
laryngeal, 281
vestibular, degeneration due to acoustic neurinoma, 49
- Neurinoma(s), 301
- Neurofibromatosis, 301
- Neurons, efferent, 206
- Noise, effects on cochlea in chinchillas, 99
exposure, in hearing loss, 426
- Nose, mucous glycoproteins of, 334
- Nystagmus, vestibular, fixation suppression of, 27
- Olivocochlear bundle, 206
- Otic drops, ototoxicity of in chinchillas, 166
- Otic placode, development of, 373
- Otitis media, experimental, induced in chinchillas by *Hemophilus influenzae*, 80
- Otocyst, formation of, 373
- Otolaryngology, academic (editorial), 157
research in (editorial), 231
subspecialties in (editorial), 157
- Otosclerosis, stapedotomy for, 108
- Ototoxicity, 166, 177
threshold, of aminoglycosides, 118
vestibular, in chicks, 387
- Paralysis, labyrinthine, effect on vestibulo-ocular reflexes, 15, 93
- Parotid gland, induction of atrophy in, 183
nonneoplastic disorders of, 183
- Parotitis, treatment by duct occlusion, 183
- Pectoralis major flap, with pharyngolaryngectomy, 203
- Pentobarbital, effects on 40-Hz auditory responses in guinea pigs, 404
- Peripheral facial palsy, familial recurrent (letter), 432
- Pharyngolaryngectomy, 203
- Phonation, role of larynx in, 281
spastic disorders of, 7
- Pituitary, preoperative diagnosis in, 138
surgery of, 138
- Pressure, hydrostatic, cochlear, of endolymph and perilymph, 159
- Protection, role of larynx in, 281
- Radiation, inducing carcinoma of the hypopharynx, 203
- Radiography, in evaluation of acoustic neuromas, 270
- Radioimmunoassay, in determinations of pituitary hormones, 138
- Recurrent tonsillitis, see under Tonsillitis
- Reflex(es), laryngeal, 281
vestibulo-ocular, effect of labyrinthine lesions on, 15, 93
- Research grants (editorial), 231
- Respiration, role of larynx in, 281
- Reye's syndrome, ferret model for, 191
- Rhinorrhea, 334
- Salivary duct, occlusion of, in treatment of nonneoplastic parotid disorders, 183
- Salivary gland, carcinosarcoma of, 415
- Sarcoma(s), synovial, of esophagus, 266
- Sodium salicylate(s), resulting in hearing loss, 235
- Sound(s), intense, resulting in hearing loss, 235
- Spastic dysphonia, see under Dysphonia
- Speech, reception, and recognition of, effect of damage to auditory nerve on, 43
- Stapedotomy, CO₂ laser, in cats, 108

- Stapes, laser treatment of, 108
- Stenosis(es), laryngeal, in children, 360
- Stimulation, caloric, of inner ear, effects on vestibulo-ocular reflexes, 93
 - vestibular, effect on fixation suppression of nystagmus, 27
- Stimulus(i), immunologic, effects on mucous glycoprotein release, 334
 - neurohormonal, effects on mucous glycoprotein release, 334
 - rotatory, response of vestibulo-ocular reflex to, 15, 93
- Streptomycin, effects on inner ear epithelium in chicks, 387
- Sudden hearing loss, tinnitus as prognostic factor in, 394
- Synovial sarcoma, *see under* Sarcoma
- Temperature(s), elevated, effects on cochlea in chinchillas, 99
- Temporal bone, involvement by trigeminal neurinoma, 301
 - Mondini malformation in, 242
- Testosterone, in laryngeal carcinoma, 344
- Testosterone/estradiol index, 344
- 12-O-Tetradecanoylphorbol-13-acetate, effects on carcinoma cells, 1
- Thyroarytenoid muscle, 281
- Tinnitus, in deafness, 394
- Tomography, in evaluation of acoustic neuromas, 270
- Tongue, flap from, lip reconstruction using, 60
- Tonsillitis, recurrent, 382
- Tracheostomy, effects on laryngeal function, 281
- Tracheotomy, effect of craniofacial anomalies, 64
- Transsphenoidal surgery, in pituitary disease, 138
- Trigeminal nerve, 301
- Turbinate(s), in analysis of nasal mucous glycoproteins, 334
- Vasculature, cochlear, changes induced by exposure to elevated temperatures and noise, 99
 - cochlear, of gerbils, 127
- Vestibule, adaptive responses of, 262
 - changes in Reye's syndrome, 191
 - dysfunction in Cogan's syndrome, 258
 - effects of topical otic drops on, 166
 - efferent system of, 206
 - enlargement of aqueduct in, 411
 - hair cell loss caused by aminoglycoside overdosage, 118
 - ototoxicity in, 387
 - reflexes of, effect of labyrinthine lesions on, 15, 93
 - temperature changes in during CO₂ laser stapedotomy, 108
- Virus(es), Epstein-Barr, carcinoma cells activated by, 1
 - influenza B, effects on inner ear in Reye's syndrome, 191
- Voice, disorders of, laryngeal aerodynamics in, 397
 - disorders of, spastic, 7
